Sleeper Agent: Jonathan Witter
(alias: Jonny Spreadsheets)

Ohio NEMO Program
(aka NEMO for Streams; STREAMO)

Why STREAMO?

- If they did it, so can we...

Nothing is more important than the water quality of the
frontline jobs ahead of us in the river...
bring the world together from itself from our
and solutions a la
FREMO.

Blue is the new "green"

- Incorporate blue infrastructure

Streams have a great ability to do work for us. They protect from many of the same hazards that a gauging station with a water flow line

Where to Begin...

- Start at the stream...
 - Ohio NEMO introduced this idea in 2003, but...

Cool Educational Tools

- ◎ STREAMS Tutorials <http://streams.osu.edu>
 - Freely available, web-based tutorials on stream basics.
 - Multi-media capabilities, links to resources, and a quiz.
 - 2 purposes: serves to increase awareness and education but also a pre-req to workshops.
 - Can be adaptable to any state or region.
 - Can be expanded to any issue (we need you!)

Top 10 reasons to Adopt STREAMO:

- 10. No better time to jump on the blue-green bandwagon.
- 9. OMG, online videos? Epic Win.
- 8. Who doesn't love fish?!
- 7. It's not rocket science...just fluvial geomorphology and biogeochemical nutrient cycling.
- 6. Makes you feel better about yourself.
- 5. Makes economic sense; we all live downstream.
- 4. Tools to address water quality.
- 3. Tools to address water quantity.
- 2. Encompasses agriculture, urban, exurban, coastal land uses.
- 1. Protect Valuable Water Resources.
